Special Vulnerability Warning to everyone with Custody Responsibilities

End Stage Kidney Failure gets Dialysis Treatment by the NHS and Diet Control by the Patient

Special Complications get No Treatment by the NHS and Self Help Remedies by the Patient.

Healthy Kidneys provide between 13 and 15 time more Blood Cleaning Service than Dialysis Treatment. It is an Incomplete Service. Residual Toxin Dumps in the flesh corrode the flesh and skin. The Patient identifies the Toxin Dumps and uses Skin Cuts and Skin Massage for Toxin Releases. It is a Partial Remedy that does Scar Damage. Body Repairs do not keep up with the Skin Damage. There is Slow Loss of Skin Function. The body uses Low Processing in Sleep Periods for Resource Preservation. Low Blood Pressure in Dialysis Sessions get Treatment Reductions. Deep Sleep needs Safe Conditions. On 17th March 2023 the Court Frauds + Police Custody Frauds + Train Strike Reduced Services caused Grievous Bodily Harm Torture by Diet Control Denial + 32 Hours Forced Wakefulness + Reduced Dialysis Treatment.
