

Additional Briefing + Special Service Request Support Documents

29th March 2023

Reverend Carolyn Tibbott,

Please share the Special Service Request and Support Documents with the Local Roman Catholic Priests, and ask the Bishop to assist sharing it with the other Religious Leaders. They must not underestimate the Good Will of Lapsed Practitioners. The Lead Victim of the Northern Ireland Ruin Frauds is a Lapsed Roman Catholic. The Lapse Reasons are that Severe Dyslexia prevented him reading fast enough to sing hymns, and his Perverted Parents wanted him to attend. Before puberty he achieved Emotional Independence from them and distinguished between the Religious Good Will Message and Bad Messengers. There must have been a Successful Priest.. In 2016 he discovered the Coronation Oath Enforcement Authority and provided Support Services.

Roman British Gnostic Christians developed the Common Law to govern their relation with God. They made it God Neutral so that Pagans and Atheists could use it. They did not call themselves anything. Others called them the Elijah's. It was shortened to the Eli. It became the Ellis. All of the Caucasian British are equally related to them. In 865 the Viking Invasion displaced them. Some settled in North Wales. They had the languages and dialects to service the Central England Market. They used Mountain Grazing to fatten the flock that fed the Autumn Auctions in Newport, Shropshire. Central England became dependent on Welsh Sheep for a Food Supply. Gnostic Christians kept control of it and survive Roman Catholic Supremacy. The Suez Scandal got the Dictator Governance Plan. It was a Sabotage Fraud against the Common Law and an Identity Attack on the Gnostic Christians. They made an Equity Governance Recovery Plan. Queen Elizabeth II agreed. It needed Criminal Conspiracy Proof against a serving Prime Minister. It took 45 years to get it. She lived long enough. She and Charles did what the Crown needed to do to make it work. The Recovery Plan included sharing with Good Will Religions the responsibility for providing Lord Bishops to service the Coronation Oath Enforcement Authority. It needs careful management. The Lord Bishop Candidates need Common Law Expertise for Coronation Oath Enforcement. British Citizens developed Advanced Electronic Signature Technology. It enabled the Citizen to get control the Identity Market. It enabled use of the Core Identity Businesses to finance Education Trusts and Professional Development Trusts for Good Will Religion Leaders to qualify as Lord Bishops. The European Leaders used Market Exclusion Frauds to stop it. Success now will enable resumption of the plan.
