

Complainant: Equity Lawyer Mr Edward Ellis

Complainee: Fraud Conspirators – Authority Officers

Complaint: Budget Frauds against the State on an Industrial Scale

1. The Statement is in the Jury Oriented Style. It uses the 3rd Person because Jurors use the 3rd Person when talking about everyone else in the case. It identifies Familiar Phrases with Capital Letters. Competent Advocates use Familiar Phrases in Case Papers and Oral Presentation. It gives Lay Jurors a Common Understanding they need to make Jury Findings. It enables the Lord Bishops, who are Professional Jurors, to decide in which cases they can make Jury Trial Fitness Findings if that is what Corruption Remedies needs.
2. The UK has a Unique Power Apportionment between Citizen and State. It enabled King Charles to negotiate the World War III Peace Plan Agreement for a Just World Order. It got Corruption Remedy Test Case Status for the UK, Test Manager Status for the Coronation Oath Enforcement Authority, Interested Party Status for the Peace Plan States and the Common Law for the Just World Order. Resourcing a Just World Order needs Budget Allocations and Conversion Training from Dictator Governance to Equity Governance.
3. The priority is change from the Power Balance that services Dictator Governance to those a Just Word Order needs. This document will stimulate Adverse Criticism that services the change. Peace Plan Leaders prefer Many Initiatives by Many Individuals to achieve a Common Understanding the Peace Plan Leaders can service.
4. In the beginning there was Mob Rule and Nothing Else. It was a Priority Order in which the Most Powerful seized Mating Exclusivity and Feeding Priority and Relative Power dictated the Pecking Order for the rest. Improved Language enabled the Idea Exchanges needed to develop Basic Law. It was Reliable Objectivity applied to the Group Survival Priority. The Ice Age limited Food Supplies and the Group Size. It is likely that Food Shortages forced Basic Law. A Mother + Baby needed 5,000 calories a day and provided No Food Finding. If 15,000 calories day was too much for 4 to find for them + Mother + Baby, and Mother could help find 12,500 calories to feed 5, it validated Baby Sacrifice. It became the Group Stress Response. The Ice Age ended. Food Supplies increased. Improved Language and Food Supplies supported Bigger Groups. Reliable Objectivity did not stop Baby Sacrifice becoming the Stress Response to famine, disease and war. Reliable Objectivity is easier for the Individual and Small Groups than Big Groups. The difficulty changing Established Behaviour is proportionate to the Group Size.
5. The Hebrews worshipped the War God. They were the first to use Reliable Objectivity to end Baby Sacrifice. It increased the Baby Survival Rate and the Tribe Size. Baby Sacrifice Threats motivated Desertion Decisions by Fertile Young Women, with their children, from Competing Tribes to the Hebrews. It forced the Young Men to follow. In time, perhaps 100 years, the Baby Survival Rate and Tribe Desertions got Dominant Tribe Status for the Hebrews. Civil War was a bigger risk than Tribal War. They used Reliable Objectivity to change from the War God to the Peace God. 12 Tribes developed a Common Law to control the Civil War Risk. It created Nation Power. It discovered the need for the Crown to control the State, the Anointed Succession to control the Coup Risk, and Safe Conditions for the Chief Rabbi to give Moral Guidance to the Crown. The Book of Kings gives verdicts on 120 reigns. The ratio was 29 Failures for every 1 Success. A Turbulent History did not break a Group Cohesion got by a Peace God and Common Law. Group Exclusivity limited the Group Size.
6. The Roman Senate managed Territorial Expansion. The Territorial Limit was the size of the army that Roman Citizens could staff, They spent 100 years arguing whether to give Citizen Status to the Conquered People. The decision to do so, and Religious Freedom for about 2,000 gods, removed the Expansion Limit. It needed a Dictator Emperor with Top God Status.
7. The Roman Conquest and the Jewish Establishment degraded the Jewish Legacy, but it survived. Jesus Christ used Reliable Objectivity to re-define the Core Belief and share it with everyone. It got Celebrity Status with the Jewish Laity and Pariah Status with the Jewish Establishment. It did not get a Jewish Revival. It got Gnostic Christianity. The Extremists did not acknowledge the Emperor as Top God and suffered for it. The Monotheistic Religions were Zoroastrianism, Judaism and Gnostic Christianity. They grew. Gnostic Christianity was more welcoming than the others. It grew faster. In 3rd century, Emperor Family Members chose it. They provided safe conditions for others to do so. It was a Faith Religion that gave Salvation Hope. It reached Roman British. It was not enough for them. They wanted a Salvation Guarantee. It needed a Bad Risk Control. They developed a Decision Discipline to govern the relation between the Individual and God. Strict Observance of the Decision Discipline was the Salvation Guarantee. They used Reliable Objectivity to discover the truth of the circumstances and then reason just use of it. They gave the People legal status in every case. They used validity for the Rights Definition Process and then Rights Enforcement. They graded wrong by the damage it could do. They classified as invalid anything that risked a breakdown of the relation between the People and God, then an International War, then a Civil War, then a Local Riot, then a Brawl. What remained was Potentially Valid. They identified and eliminated the Worse Option at every stage until what remained was a Valid Set of one or more. They used it, or chose one, for the Rights Declaration. It

remained a Valid Right until a change of circumstances invalidated enforcement and made it wrong. It vested a Remedy Obligation + Remedy Empowerment in the Individual subject to a Proportionality Control governed by Energy + Talent + Wealth. The challenge for the Individual was to discover the Success Requirements, resource as much as the Individual could do alone, and find one or more to do the rest. It mandated Personal Courage. Good Intent + Competent Management got the Salvation Guarantee. Talented Paupers could challenge Powerful Officers. They used the Decision Discipline to develop the Common Law. It governed the relations between the Individuals, and between the Individual and Authority. They wanted a Total Reversal of Group Management. They got it.

8. The Common Law required Management Equality for Case Parties. It required a Credible Neutrality Qualification for Conflict Jurisdiction Office. It required Jurisdiction Separation of the Rights Definition from Rights Enforcement, and then of Expert Opinion v Investigation v Prosecution v Defence v Trial Adjudication v Appeal Adjudication v Execution. It imposed a Voluntary Disclosure Obligation of anything that is or might appear to be a Conflict Disqualification from Jurisdiction Office. Any Office in a case process was a Conflict Disqualification from All Other Offices. It required discovery of Management Inequality and Inequality Remedies. It required the Stability Control of the Evidence Balance. It required a Validity Presumption for the Citizen and Credibility Presumption for the State both of which were subject to Rebuttal Proof Positive that was subject to a Bad Risk Control that was subject to a Proportionality Control. The Bad Risk Control included: Inadmissible Status for Process Evidence got by Validation Breaches + Fraud Proof of anything got Justice Process Contempt Liability with Remedy Proof Burden Reversal for the Fraud Victim against the Fraud Manager and Fraud Beneficiary subject to the Rebuttal Proof Positive with the Bad Risk Control and Proportionality Control.
9. In the 5th century the withdrawal of the Roman Empire from Roman Britain vested Governance Responsibility on Tribe Chiefs. The Gnostic Christians made an Expansion Plan. It gave Local King Status to Tribe Chiefs with Absolute Power. Any who believed that had Absolute Power needed a Negotiation Manager and was likely to appoint the Gnostic Christian who recognised them as Local King. If they did not believe they had Absolute Power, they could negotiate. It got Trade King Status for the Gnostic Christians. They gave Governance Advice that Tribe Cohesion needed Local Kings to avoid Personal Responsibility for Conflict Adjudication between Tribe Members and offered Adjudication Services. If there was Outcome Anger, it was directed at the man riding out of the village and not Local King. The Common Law became the Adjudication Standard. It was Peace Management within tribes and between tribes. It was a Cultural Legacy that vested Remedy Rights for the Victim and Citizen and Culture Recovery Potential for the People. Turbulent Histories demonstrated the Recovery Powers. It was never perfect. It was better than the alternatives. Cultural Revivals that relied on Isolate Personalities with Herd Management Skills.
10. In the 17th century, the Glorious Revolution got a Parliament Session Power Limit for the Crown Power and the Coronation Oath Enforcement Authority for Stability Management. It enabled Case Management by the Talented Poor to get Parliament Session Grants with Corruption Remedy Conditions against Powerful Vested Interests.
11. The World War II Peace Settlement had Fundamental Flaws. The Human Rights Declaration omitted Case Priority Rights for the Victim and Citizen, and Top-Level Corruption Controllers that are Credibly Independent of the State, Law Courts, Cabinet and Parliament. The Declaration States gave and got Mutual Approval of the Fundamental Flaws and used them to develop Dictator Powers. International Agreements required Declaration Signatures. The Fundamental Flaws became the Dictator Governance Standard for Democratic States. In all Declaration States the Politicians lost control to Crime Partnerships of State Officers and Law Court Judges. They developed Protection Fraud Networks to provide Support Services and manage Co-ordinated Corruption. They sold Market Frauds to Organised Crime, provided Protection Frauds for Corrupt Officers who managed them and traded Glittering Career Guarantees and Job Profits for Fraud Services by Corrupt Parliamentarians. General Elections got Governing Majorities that were subject to Remedy Denial Majorities controlled by the Protection Fraud Networks.
12. In 1956, the Suez Scandal was a disgraceful end to the Colonial Era for the UK and France. They exploited the Peace Settlement Fundamental Flaws made a Dictator Governance Plan for Western Europe. It vested Dictator Powers in the Cabinet. It used Sabotage Frauds against Leadership Competitors: Sex Crime Investigation Denial Frauds against Religious Leaders + Admissible Evidence Denial Frauds against the Coronation Oath Enforcement Authority + Mental Illness Diagnosis Frauds against Isolate Personalities. The Dictator Plan had Fundamental Flaws. The UK Gnostic Christians made an Equity Governance Recovery Plan. It exploited the Dictator Plan Fundamental Flaws. It used Top Level Corruption Proof to revive active service of the Coronation Oath Enforcement Authority and get the World War III Peace Plan Agreement for a Just World Order. In 2004, the preparations for the European Referenda got Top Level Corruption Proof. Queen Elizabeth revived active service of the Coronation Oath Enforcement Authority. In 2023, King Charles got the World War II Peace Agreements. They survived Renegade Royal Andrew + Renegade UK Cabinets + Renegade USA President Mr Trump + Renegade Others. It needs use of Budget Frauds to complete Remedy Delivery.
