It would transfer most of the Trust Management Business from Tax Haven Lawyers to the UK. The EU Leaders, including UK Prime Minister Mr Blair, made a Personal Profit Plan. It needed Source Code Theft, Forced Usage in the EU and Usage Licence Fees for the Theft Conspirators. Prime Minister Mr Blair was the Theft Manager. The Secret Service made Licence fees for the UK State a Theft Condition. It defeated the purpose of the Personal Profit Plan. Prime Minister Mr Blair used Barclays Bank Group Board as Theft Agent. It got Incompetent Efforts by Junior Bankers who gave themselves away at every stage of the process. It got Source Code Theft Conspiracy Proof for the Equity Lawyer. The EU Leaders made a Market Exclusion Plan against the Equity Lawyer. It used the Advanced Electronic Signature Statutory Instrument 2002, which was copied all EU States. It vested Licencing Powers in the State. The Total Absence of Licence Forms + Licence Staff in the EU and UK is Market Exclusion Fraud Proof for the Equity Lawyers against the EU Leaders. In 1999, the technology got a Geneva Inventions Exhibition Gold Medal. It is Originality Proof. He kept the Theft Conspiracy Proof + Originality Proof for the USA Jurors, and thereby managed USA Market Exclusion against Execution Code Products of the Theft Conspirators. In 2002, he found a Bank IT Expert to develop the Document Management Component. It was completed in December 2003. The Bank IT Expert owns 100% Copyright + 100 Creditor Control of the Document Management Technology.
