Complainant: Equity Lawyer Mr Edward Ellis

Complainee Commissioner Ranks + Cabinet + Corruption Managers [Peter Mandelson + Keir Starmer + Others]

Complaints: Jurisdiction Fraud + Police Budget Fraud + Treason

Special Case: Resource Allocation Frauds that financed the Initiation Costs for Police Force Mergers Campaign with Record Fraud Support Evidence.

General Case: Resource Allocation Frauds for Criminal Business Management and Protection Frauds by Police Officers against the Victims, Citizens and People using

Root Problem: The World War II Peace Settlement had Fundamental Flaws. The Human Rights Declaration omitted Case Priority Rights for the Victim and Citizen, and Top Corruption Controllers that were Credibly Independent of the State, Law Courts, Cabinet and Parliament. The Declaration Signatories gave and got Mutual Approval of the Fundamental Flaws and used them to develop Dictator Powers. The Politicians lost control to Crime Partnerships of State Officers and Law Court Judges. They developed Protection Fraud Networks to provide Support Services and manage Coordinated Corruption. They sold Market Frauds to Organised Crime, provided Protection Frauds for the Corrupt Officers who managed them, traded Glittering Career Guarantees and Job Profits for Fraud Services by Corrupt Parliamentarians and made Pollution Frauds + Habitat Sacrifice + Governance Frauds an Obligatory Overhead for Economic Development. General Elections got Governing Majorities that were subject to Remedy Denial Fraud Majorities controlled by the Protection Fraud Networks. Asset Thefts + Budget Frauds did Ruin Damage to the Citizen and State. It made inevitable a Dictator Supremacy World War. It created the need for an Equity Governance Plan to use the Common Law and avoid System Collapse.

Root Remedy: A World War III Peace Plan for Democratic States: A Peace Agreement that requires Sovereign States to Destruction of the Protection Fraud Networks that manage Endemic Corruption, recovery of State Budgets, resourcing World War III Defences and resourcing a Just World Order. A Management Agreement that gets Corruption Remedy Test Management using the Common Law, Interested Party Status for the Peace Plan Signatories. A Remedy Agreement that requires Remedy Enforcement against Fraud Profiteers and Penal Enforcement against Corrupt Leaders. A Delivery Agreement for Commitment Deliveries some of which are conditional. A Publicity Agreement that requires Whole Plan Secrecy and Mass Publicity for Plan Stage Successes, without disclosure that is what they are, until there is enough for Whole Plan Publicity.

A Superiority Complex is an Addictive Drug that infects Governing Classes. Bad Cases result in Colonial Expansion that get Empire Status. The Standard Aetiology starts small, gets big and goes bust. It gets a Power Transfer to Revolution Managers or Power Vacuum Beneficiaries, who define the Constitutional Balance of the Successor Regime. The Life Cycle has a wide range. The Greek Empire had decades. The Roman Empire had centuries. Europe had 500 Sovereign Entities. The Roman Empire Collapse got Dictator Legacy Regimes for most of them. Roman Britain was an exception. The growth of Monotheistic Religions was a Fundamental Change. The Roman Empire Family accepted it. Gnostic Christianity was developed to service All People. In the 3rd century AD, the Empire Family chose it because it was serviced the Established Vested Interest of the Roman Citizen. The Roman British were not satisfied with Mercy Prayers and a Salvation Lottery. They wanted a Salvation Guarantee. They developed the Decisions Discipline to manage the relation of the Individual with God, and then the Common Law to manage relations of the Individual with Authority. They traded an Honesty Commitment + Competence Commitment from the Individual and People for a Life Peace Guarantee + Death Salvation Guarantee from God. The Decision Method was Truth Discovery and Objective Reasoning to identify All Options, eliminate the Worst Conflict Risks, discover the Potentially Valid Options, continue identifying and eliminating the Worse Option until there were Equal Risk Options or One Option, and choose one or it as the Defined Right. A Relational Breakdown Risk with God was worse that an International War Risk that was worse than a Civil War Risk that was worse that a Local Riot Risk that was worse than a Case Parties Brawl Risk. It discovered the Potentially Valid Options. They were clever. They wrote Management Stability Advice Requests to Empire Family Members, let Local Governors read it, and asked them to send it in the Government Post. Most of the Local Governors were more interested in sharing Governance Experiments than interfering with them. The Conflict Avoidance Priority validated development of Common Interest using General Trade. They developed Trading Relations with Neighbour Communities. They gave Risk Avice that Adjudication Decisions were a Community Instability Risk and Remedy Advice that Adjudication Services by Trusted Outsiders were a Reliable Risk Control and then made an Adjudication Service Offer. Advice Acceptance and Offer Acceptance by Community Leaders got the Common Law for the Neighbour Communities, and then via them to others. It started under Roman Rule. The Roman Withdrawal created Power Vacuum that Tribal Leaders filled. The Trade Policy got Peace Agreements and Common Law Governance. It was not perfect. It was better than the Dictator Governance + Mercy Prayer Christianity the rest of Europe had.

In 1396 the first cannon was fired. It started an Arms Race that forced Sovereignty Mergers with whoever had Coal + Iron Ore. Empires rose and fell. Regime Changes got Successor Dictator Regimes dominated by the Commercial Executive or Political Executive with One Exception. In the 17th century, England and Wales had a Civil War between the Crown and Parliament with a Peace Interval of 40 years. Parliament won the 1st War and lost the 1st Peace. It discovered the Tyranny Risk of Unidentifiable Parties using Parliament Committees was worse than the Tyranny Risk of an Identifiable King. There was a General Consensus for a Tyranny Control Plan that a Monarchy Restoration and Charles II. He had enough judgment to make it work for 25 years. He had illegitimate children but no legitimate children. His brother, James, was the heir. He was a Clever Idiot with a Lunatic Plan to use Protestant Taxes building Roman Catholic Cathedral in Whitehall, London. The Governing Class wanted 2nd Peace without a 2nd War. It got a Power Vacuum. The Gnostic Christians filled it and masterminded the Glorious Revolution. It managed a Confidence Collapse + Jurisdiction Vacation by James II that they used for an Abdication Finding + Lawful Success Finding for the Heiress + Husband with the 2nd Peace Settlement. It got a Parliament Sessions Limit for the Crown and a Coronation Oath Enforcement Authority to manage Error Risk Controls. It vested Remedy Initiation Powers in the Citizen and Response Powers in the Equity Lawyer, Crown and Parliament Sessions Court. It discovered Common Law Practice stimulated development Specific Jurisdiction Expertise. The creation of a Top-Level Corruption Control Jurisdiction needed Appropriate Expertise. It needed Crisis Test Cases. Governance Stability resulted in Crisis Test Cases being rare. Profession Management evolved to get a Reliable Supply of 1 in 50 Regulated Lawyers who the Skill Range needed to function as Equity Lawyer and manage Corruption Remedy Initiation for the Citizen.

At the outbreak of World War I, the Sovereign Entities had reduced from 500 to 25. The UK, France, Netherlands, Germany and Russia had Empire Tatus. The Superiority Addiction contaminated the European Populations. The UK was unique. It was the Top Empire. It had a Peaceful Revolution Empowerment for the Citizen, all of which needed Crisis Test Cases. World War II got Vassal Empire Status for the UK, France, Netherlands and Germany and Superpower Status for the USA and USSR. The Vassal Empire Governing Classes needed a Managed Withdrawal from Superiority Addiction. They did not get it. They had a Superiority Addiction + Chronic Fix Dissatisfaction.

In 1956, the Suez Scandal was a disgraceful end to the Colonial Era for the UK and France and a Massive Humiliation of the Cabinets. They made a Doom Plan. It used a Western Europe Dictator Governance Standard and Economic Success Pretence Frauds that needed Industrial Scale Environmental Waste with intent create the Biggest Richest Single Market in the World Economy with intent to get Fix Satisfaction for the Superiority Addiction.

The Peaceful Revolution Empowerment enabled the UK Citizens to make a Root Remedy Plan. It had two Remedy Strategies, each of which used Fundamental Flaws in the Doom Plan. The first Doom Plan Fundamental Flaw was a Civil Dictatorship needed Electronic Signature Dictator Powers. The first Remedy Strategy was for the Citizen to develop Advanced Electronic Signature Technology, provide Trust Management Services that got Reduced Dependence on Professional Trustees, enable Prosperous Classes to manage Tax Haven Estates from their homes and use Taxation Starvation to force conversion from Dictator Governance to Equity Governance. The second Doom Plan Fundamental Flaw was the inevitability that Protection Fraud Networks would get Cabinet Control and manage Endemic Corruption. The second Remedy Strategy was to wait until there was Endemic Corruption, get Criminal Conspiracy Proof against Prime Minister when still in office, revive active service of the Parliament Sessions Court and service the Root Remedy Plan. Queen Elizabeth agreed it. She, Prince Charles and Princess Ann spent decades preserving the capacity of the Crown to service it if the Citizen met the Trigger Conditions: Advanced Electronic Signature Technology and or get Criminal Conspiracy Proof against a Prime Minister when in office. In 1998, Equity Lawyer Mr Ellis and a Technology Partner completed development of Advanced Electronic Signature Technology. The EU Leaders made a Theft Plan. It failed. They made a Market Exclusion Plan. It failed. In 2004, the Market Exclusion Failure got Criminal Conspiracy Proof against EU Leaders including Prime Minister Mr Blair. The Equity Lawyer gave it to Queen Elizabeth. She used it to revive active service of the Parliament Sessions Court and service the Root Remedy Plan.

Meanwhile, the combination of Endemic Corruption and the Core Belief of the UK People that there should be a Root Remedy Plan had the effect of Managed Withdrawal from the Superiority Addiction. The Doom Plan contaminated the Protection Fraud Network with a Superiority Addiction, and through them, the State, Profession Authorities, Law Courts, Cabinet and Parliament. The difference is that the Top Officers have been able to get Fix Satisfaction.

All Officers had Logical Knowledge and Emotional Denial that Jurisdiction Limits got a Political Campaign Initiation Prohibition for the People against Police Forces. The use of Resource Allocation Frauds to finance Political Campaign Initiation Frauds got Perversity Fix Satisfaction + Fraud Manager Status + Fraud Beneficiary Status for the Commission Rank Officers. It validates Fraud Damage Indemnity Claims by the State for the People against them. The Crime Complaint will be a Budget Fraud Test of the Police and a Fraud Damage Indemnity Claim Test of Politicians.
